PROFESSIONAL SUMMARY

Goal-oriented Software Engineer with a solid foundation in backend architecture, full-stack web applications, and database optimization. Experienced in building high-throughput REST APIs using Python, FastAPI, React, and PostgreSQL. Passionate about writing clean, maintainable code and solving complex technical challenges.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java, C++

Frameworks & Web: FastAPI, Flask, React.js, Node.js, Express, Tailwind CSS, REST APIs

Databases & Storage: PostgreSQL, MySQL, SQLite, Redis, MongoDB

Tools & DevOps: Docker, Git, GitHub Actions, Linux, Postman, CI/CD pipelines

Core Competencies: Data Structures & Algorithms, Object-Oriented Design, System Design

KEY PROJECTS

AI Mock Interview & Placement Training Platform | *Python, FastAPI, React, SQLite*
• Developed a responsive web platform with speech-to-text transcription, AI evaluations, and adaptive questioning.
• Implemented 10-table normalized relational schema with cascading foreign keys and multi-tenant data isolation.
• Designed clean, distraction-free UI following WCAG 2.1 AA accessibility guidelines.

Distributed Background Task Scheduler | *Python, Redis, Docker, Celery*
• Engineered a scalable worker system managing asynchronous batch processing across multi-node clusters.
• Reduced job queue latency by 40% using Redis Pub/Sub channels and optimized serialization.

Secure API Gateway & Authentication Service | *FastAPI, JWT, PostgreSQL*
• Built an edge gateway with bcrypt password hashing, token expiration validation, and IP rate limiting.
• Handled 5,000+ concurrent requests with sub-15ms response times.

WORK EXPERIENCE

CloudScale Solutions — Software Engineering Intern (June 2024 – Dec 2024)
• Collaborated with senior engineers to design and deploy 15+ production RESTful endpoints using FastAPI and PostgreSQL.
• Improved database query response times by 35% through targeted index tuning and connection pooling.
• Authored automated unit and integration test suites achieving 92% code coverage.

EDUCATION

Bachelor of Technology in Computer Science & Engineering | Tech University (2021 – 2025)
GPA: 3.8 / 4.0 • Relevant Coursework: Data Structures, Algorithms, Operating Systems, Database Management Systems

CERTIFICATIONS

• AWS Certified Developer Associate
• Postman API Fundamentals Student Expert
